Traditional DR Cost

Disaster Recovery (DR) Today

All businesses today are increasingly entailing Disaster Recovery (DR) as an important part of their Business Continuity strategy. It consist of setting up one's own DR site and managing it as effectively as the primary site. However, with this option, huge direct and indirect costs are associated. The other challenges faced by organizations while going for a traditional DR are :

- Costly to plan and setup
- Increasing Total cost of Ownership
- Huge Operational Expenses
- Skilled Resource Management
- Technology Refresh on Continual basis
- Replacement of end-of-life components
- Lower ROI due to rare usage of DR use

Why REVIVE?

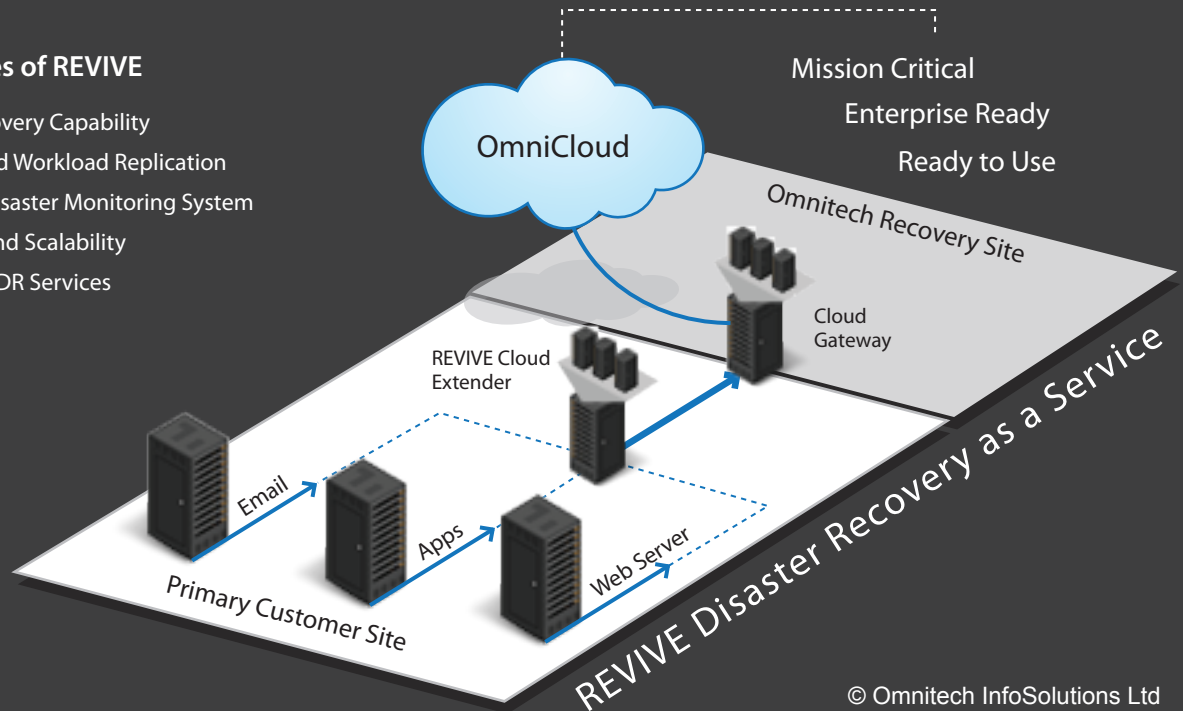

REVIVE is an answer to the cost effective alternative for your Disaster Recovery needs. Being an emerging enterprise, you can now easily and affordably implement DR through REVIVE and ensure your business is always up and running even in the times of disruption. REVIVE offer unmatched value through:

- Pay-Per-Use pricing
- No upfront CapEx (Minimal Retainer Fees)
- Complete Workload Recovery (OS, Application & Data)
- On Demand IT Resource Provisioning
- Periodic Drills
- Call Tree Execution
- Optional Multisite DR
- Optional WAR (Work Area Recovery) Seats

REVIVE has the ability to take snapshots of the workload (OS, Application and Data) and recover it through a cloud-based model. A scheduled replication of production site workload takes place on OmniCloud in a highly secured environment. In the event of a disaster, you can have your critical business processes up-and-running by invoking COB (Continuity Of Business) request. Resources on OmniCloud such as processing power, memory and storage, required to run your critical and predefined application load will be made available.

Key features of REVIVE

- Local Recovery Capability
- Automated Workload Replication
- Remote Disaster Monitoring System
- On-Demand Scalability
- Managed DR Services

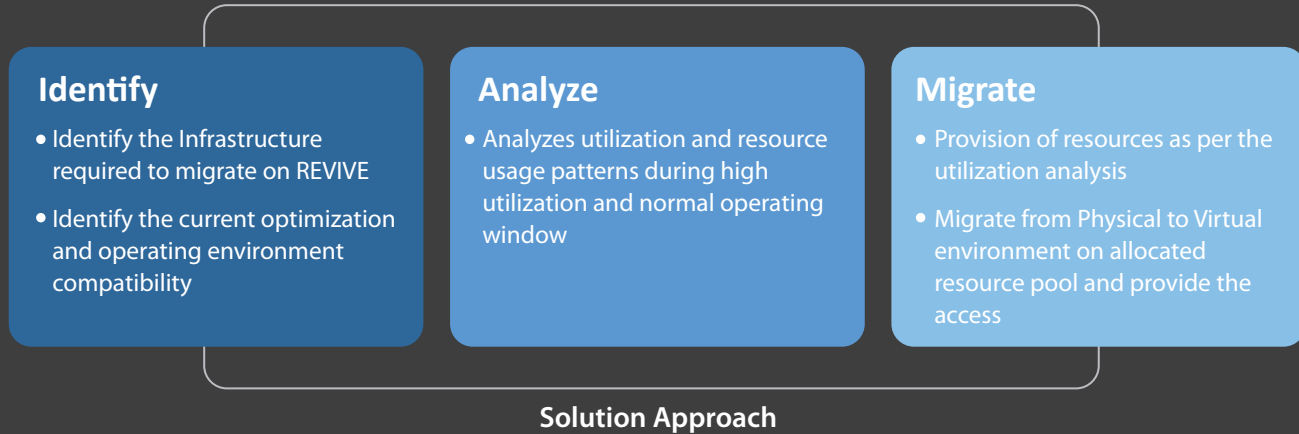

We are goal sharers

We are agile, flexible, responsive and convinced that our success lies in yours. You can be sure that you'll only work with our 'A' team who will give your project the time and attention it deserves - no struggling with multiple, faceless layers that delay decision making.
